informational listings on the other. All of the lighthouses which are still standing in the US are included and are organized by state. Each listing includes such details as year, whether still active or not, and location with GPS coordinates. I decided years ago that I wanted to visit all the lighthouses in the US; this map just made my planning significantly easier! 5 of 5 people found the following review helpful. Fantastic Map By TexieLady I bought this map as a gift for a friend who loves lighthouses. She was so delighted she hung it on her wall. It really is a beautiful map with pictures of many lighthouses from around the country. Made a wonderful gift, and I know she will enjoy looking at it for years to come, and perhaps be able to travel the country from lighthouse to lighthouse with this map. 0 of 0 people found the following review helpful. Great Map by two are required if wall mounting By nallen I purchased this map to track Lighthouses in the US. My elementary age boys and I are going to start visiting as many lighthouses as we can until the boys grow up and become bored. My father is mounting to a cork board for Christmas. I need to purchase a 2nd map because so much information is posted on the rear of the map. Not a negative if you keep the map with you. For posting and tracking though, you'll need two.
