found the following review helpful. Best Utah Book By S. Gilgen I buy this book over and over to give out of state/country visitors. Gorgeous photography. Really shows off what a beautiful state Utah is. I've bought other books as they've come out but always go back to "Utah on my mind". 3 of 3 people found the following review helpful. A Sensual Exploration of Utah's Beauty and Grandure By Ray Highly recommended. As I first began to leaf through the glorious pages of Utah On My Mind I was struck with the beauty of the state. The variegated landscape, the deep greens, the canyon reds, and the brilliant whites all came together like the mixed and mingled hues of a Navajo rug. The book itself provided me with a heightened sense of respect and awe for the great state that is. . . UTAH!

Utah beckons -- through diversity of sand and snow, high mountain lakes and forests, through the copper spires of Bryce Canyon and the mammoth, smooth, vertical rock fortresses of Zion National Park. Come and see Utah as never before in the pages of this exceptional collection of color photographs with complementing text that celebrates and pays tribute to the beauty of Utah.
