We were very pleased with the accommodations we found. The only reason we did not get into every hotel we called was due to no vacancy. Otherwise, we enjoyed where we ended

up and were grateful for the book. This book is a great resource guide but you will have to do your homework. And as a consumer, you have to be responsible for yourself. The book does not give details on the hotels it lists so take it upon yourself to call and inquire. With so many listings it would be hard to also stock it with pictures and details. Even if the book listed details you would need to followup on your own. It is hard to be 100% accurate in a fast paced changing world. I found this book useful and would recommend it to all my dog owner friends. 14 of 14 people found the following review helpful. Call Ahead! By Jill Matrix This book is an excellent place to start and gives you an idea of chains that typically take pets -- a surprising number. However, I just got burned trying to find a place to stay late at night in Baltimore. Two of the places listed in the book did not take pets, had never taken pets. I ended up in a hotel you would not believe because I was just too exhausted to keep driving. So ... take what's in this book with a grain of salt and phone ahead. Or buy a different book. I threw my copy away when I got to New York, if that tells you anything. 15 of 15 people found the following review helpful. Almost False Advertising By June This is one of the most self-serving pieces of... I have ever bought. It's more of an autobiography of the author (Eline Barish) than a directory. The listings are stale and MOST (5 out of 7) of the places I stopped at last week didn't accept pets and NEVER HAD... That's all you can say about it. As a single woman traveling with my dog, this is a headache that I didn't need and don't want anyone else to have either...
