I, too, am amazed to read the bad reviews. An "autobiography of the author"? "self-serving"?, are we looking at the same book? Mine has pointers about traveling with your pet, training tips, road tips, kenneling, tips for vacationing with your pets, etc, certainly nothing related to the above quoted comments from other reviews. I always call ahead for reservations and tell the motel/hotel I have a large dog (60+ lbs.). I have never had a motel listed in this book say they did not take pets, there is generally a small additional charge at the motels for having a pet, not unexpected nor unreasonable. I travel frequently (although not cross country) and this guide has been invaluable. Perhaps mine is a later edition than others reviewing here have, however, I have nothing but praise for this book. It is much better than other similar books I have used when traveling.

I was very surprised to read all the negative reviews of this book. I am online now to order the updated version, as I have been working from the 3rd Edition for the last 5 years. I guess I have had no trouble because I always doublechecked by phone before appearing somewhere with any of my pets, mastiffs, all of whom weigh from 100 to 180 pounds. Many hotels change their policies about pets as they encounter difficulties; such as adding weight restrictions, refundable deposits, non-refundable deposits or simply revoking their pet policies altogether. It is always best to double check by phone before appearing. However, even despite this, this book has never steered me in the wrong direction. As a person who trains, shows and travels extensively all over the country with large animals, this book has been an invaluable resource and I recommend it very highly.

I was surprised to see all the negative reviews for this book - I have an older edition and liked it so much I came online to get an updated version for our next trip. I used it in 1996 driving from California to Maine with my dog (a large breed, btw), and it was a lifesaver. Everyplace I stopped that was on the list did indeed accept pets (some charged extra, some didn't). My only complaint was with one of the motels - they stuck me in a "pet room" (hotel code for it smells like cat p\*\*s). But I just called the front desk and they gave me a new room. I guess it's possible this book hasn't been updated since I used it, so I'll keep looking - but I just wanted to present another side.
