This author intertwines his intimate and personal adventure with the legends, traditions, and historical aspects of this unique journey. His narrative is fluid and inviting. He

describes ancient churches, shrines, and other relics of the past with the same simplicity, accuracy, and tender humor as when he describes the scenery of the countryside, his conversations with other pilgrims he meets along the way, the locals, or his own reflections about his experience. It feels as if you, the reader, were walking along with him and seeing and sharing the experience. This author is like the "spirit" of the camino. The chronological time disappears into a timeless continuum which makes his narrative totally present, profound and ...universal. Events and experiences evolve naturally, and in his story you see reality through his eyes as if they were also your own. Ana Novas 0 of 0 people found the following review helpful. I loved this book! By Richard Taylor I love this book about walking the Camino in Galicia. I felt I was along for the walk. The author, a native of Galicia, has a wonderful eye for detail. He reports his observations and thoughts so clearly, you are there with him as he traverses the Camino he loves. This book will have you planning a trek in Galicia.

A comienzos del mes de Diciembre pasado hice buen tiempo y se preveía que durara unos días. Decidí aprovechar la ocasión para completar el Camino Francés de Santiago alargando la ruta hasta Finisterre. De las dos variantes que ofrece este tramo escogí la que va por Muxa. Y de esta manera llegué al Fin de la Tierra.

About the Author A la edad de 13 años el autor ganó el premio escolar nacional de literatura y a los 14 años lo ganó de nuevo.
