**H M Brackenridge : Views of Louisiana: Containing Geographical, Statistical and Historical Notices of That Vast and Important Portion of America (Classic Reprint)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Views of Louisiana: Containing Geographical, Statistical and Historical

Notices of That Vast and Important Portion of America (Classic Reprint):

Excerpt from Views of Louisiana: Containing Geographical, Statistical and Historical Notices of That Vast and Important Portion of America This extensive portion of North America, has usually been described from the inconsiderable part which is occupied by the settlements, as though it Were confined to the immediate borders of the Mississippi, as Egypt is to those of the Nile. By some, it is represented in general description, as a low, at region, abounding in swamps and subject to inundation which is the same thing as if the Netherlands should furnish a description for all the rest of Europe. Others speak of Louisiana as one vast forest or wilderness. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy.
