Not a very good map if you want to get around WilliamsburgBy truthinessDespite the fact that "Williamsburg" is in the name of this map, the Williamsburg portion of the map is relegated to a small box in the corner of one side. Instead, it's primarily a map of Newport News and surrounding areas. And the part that is of Williamsburg isn't even comprehensive - it cuts off the outlet-mall/Pottery area and the I-64/199 intersection, and there's no close-up of the Colonial Williamsburg attractions. Unless you need street-level detail for the residential areas of W'burg, you're better off with the free map they hand out in the historic area - it's not to scale, but everything is clearly marked and it covers the entire W'burg/James City County area.

How do you navigate a state without a Rand McNally map? A must-have for all who drive, the Rand McNally Virginia Peninsula folded map offers a full-color map that shows: Interstate, U.S., state and county highways, parks, points of interest, airports, county boundaries and streets. Detailed indices help travelers locate destinations.
