Great planning tool for families with little ones!By Kindle CustomerI agree with another reviewer who says that you can find all this information for free on the internet, however that person isn't taking into account all the information this author brings to the table through life experience at Disney World! Sure you can read up on restaurants and resorts and get the facts, but the author paints a very clear

picture of what a disney vacation looks like with little ones and how to plan one! I loved the book. The author is humorous and informative at the same time which makes this book an easy read. I feel like, after reading this, planning a Disney World vacation is do-able. Now that I've got a grasp on this planning thing, I can push my anxiety to the side and actually get excited about Disney!1 of 1 people found the following review helpful. Perfect and so helpful!By WhitneyI love this book, it is so easily read and outlined perfectly! I can make my plan/checklist right as I am reading through this book!3 of 3 people found the following review helpful. Must Read!By Robb CouncilorIf you are planning a trip to Disney World, you must have this book with you! I bought the Hard Copy and the money it saved me on my trip was so worth it. From the travel tips, her advice on how to manage time and the locations to find characters all made the trip more enjoyable for all. We actually used the blank pages in the back of the book to collect character autographs!!!

Forget about hidden Mickeys and height requirements. Walt Disney World Tips n' Tricks is for parents everywhere who are overwhelmed, confused and trying to plan a Disney World vacation. Written by a "mommy-blogging" mother of four kids, this guidebook comes complete with top family picks in each park and color pictures. From packing for the trip, to saving money and surviving in the parks; this guidebook is everything Disney vacation planners need to stay sane and plan a successful trip. No more Disney information overload, no more endless pages on restaurant reviews. Whether you're thinking about taking your family to Disney World or have a trip planned, this is the ultimate, easy to understand guidebook for Disney vacation planners everywhere.

About the AuthorJodie Moyer is a mother to four active, phenomenal children. She has been to Disney World well over forty times, starting from when she was just a toddler. In 2010, Jodie started a blog, Its ALL Good in Mommyhood, to chronicle daily life as a busy mom to four. As the blog evolved she started sharing Disney tips, which led to the writing and eventual publishing of this simple, easy-to-read book for Disney planning parents. Jodie spends most of her time tending to tiny people, blogging and keeping the house from imploding. Every year she still gets excited about her Walt Disney World vacation. This is Jodies first book.
